This environmental education program, targeted at Riley County upper elementary grade students, puts a curriculum kit filled with enough supplies to perform more than twenty-five science experiments in your class. **There will be a limit of one kit per school!** We will include enough consumable supplies for all the classrooms, but you will need to share the box with other participating teachers in your school.

Participation in this program requires the following commitment:

- ✓ Complete **six experiments** minimum, preferably, at least 1 from each section; Air, Water, Soil, and Living Resources.
- ✓ Complete teacher and student **evaluations** of kit and workshop activities.
- ✓ Provide transportation and chaperones for students at the **spring student workshop**
- ✓ **Return kits** and all reusable and unused supplies at the end of the school year
- ✓ Reimbursement to E.A.R.T.H. program for unreturned or abuse of kit supplies.
- ✓ **Have tons of fun with this program!**

Your signature indicates that you agree to the conditions stated above.
